\*Guard Dog Auto and Guard Dog Fleet have an additional accessory output for the Remote feature. Guard Dog Moto and Guard Dog Marine devices have a remote activation of the panic alarm for the Remote feature. Main Power Disconnect Alert is a feature on all Guard Dog GPS devices.

# GUARD DOG Auto

The Ultimate Anti-Theft Solution

Smart,  
Reliable,  
Easy to Install

**Guard Dog GPS, Inc.** provides you with superior tracking and security to protect your family, vehicles and to give you peace of mind. **Guard Dog Auto** offers the best technology with the most robust functionality of its product class.

**Guard Dog Auto** easily connects to your OEM keyless entry system. The device provides notification when your vehicle's airbags have been deployed and/or factory alarm has been triggered. If you have an aftermarket alarm, you can connect the device to provide you with alerts when your alarm has been triggered. **Guard Dog Auto** enables you to respond faster by connecting you to your vehicle wherever you are.

Parents know the dangers of teen driving and rely on GPS tracking devices to confirm and reward safe driving habits. Our application shows in real time the route of a vehicle, the exact address where it has stopped and for how long. For added peace of mind, **Guard Dog Auto** allows a virtual fence to be created. Once the vehicle is driven past the virtual area set, an automatic alert is sent.

All **Guard Dog GPS, Inc.** products are smart, reliable and easy to install. **Guard Dog Auto** comes with the latest in superior tracking and security features providing you with the ultimate anti-theft solution.

# GUARD DOG Fleet

The Ultimate Anti-Theft Solution

Smart,  
Reliable,  
Easy to Install

No matter the size or type of vehicle in your fleet, **Guard Dog Fleet** is an indispensable tool to help businesses develop effective strategies to reduce expenses, and to assure that goods or services are delivered efficiently and on time.

Detailed information on the status of each vehicle is seen in real time using the **Guard Dog GPS, Inc.** website or mobile application. The breadcrumb trail, mileage and trip reporting is enhanced within **Guard Dog Fleet** to provide you with additional data to assist in evaluating your fleet operations. **Guard Dog Fleet** goes beyond driver education programs to reduce costs because they show managers and drivers how simple alterations in routes and driving habits can pay big dividends.

To control abuse of drivers straying off of established routes to run non work-related errands, **Guard Dog Fleet** allows managers to set a virtual fence perimeter for each vehicle. An alert is immediately issued if the vehicle strays outside the set area. **Guard Dog GPS, Inc.** helps illustrate how you can streamline your operations and improve overall performance for dynamic results.

# GUARD DOG Moto

The Ultimate Anti-Theft Solution

Smart,  
Reliable,  
Easy to Install

With theft and accidents always a concern for motorcycle drivers, **Guard Dog Moto** is the best device available today to help protect and secure your motorcycle.

**Guard Dog GPS, Inc.** features give you advanced functionality, alerts, and notifications to optimize the safety and security of both the driver and the motorcycle. Activate a virtual fence for instant alerts if the bike is moved. In the event of theft, **Guard Dog Moto** allows you to track the location of the motorcycle from the time it is moved. The instant accident notification feature can be set to automatically notify your emergency contact in case of an accident, giving you peace of mind when you are out on the road. **Guard Dog Moto** also notifies you if the motorcycle is hit, lifted or tampered with while parked, allowing you to respond to the alert immediately.

As a leader of GPS tracking and security devices, **Guard Dog GPS, Inc.** has created a smart, reliable, easy to install device for your motorcycle. The device is water-resistant to handle rough weather situations or your everyday cleaning. **Guard Dog Moto** comes with the latest in superior tracking and security features providing you with the ultimate anti-theft solution.

# GUARD DOG Marine

The Ultimate Anti-Theft Solution

Smart,  
Reliable,  
Easy to Install

Guard Dog Marine is the most robust GPS real-time tracking and security device available today. Guard Dog GPS, Inc. helps you keep your vessel secure whether it is on the water or in storage. By letting you set a virtual dock fence around your craft, you can receive alerts if it is moved beyond the designated area. Guard Dog Marine easily connects to your existing alarm or sensors, allowing you to receive notifications of unauthorized access while you're away from your vessel.

Guard Dog Marine reports all information in real time providing routing, current position, speed, and other important information regarding your vessel. Guard Dog Marine easily connects to your vessel, providing you with a high water bilge alert or a bilge pump cycle notification, thereby allowing you to review from any location if the craft is taking on unusual water amounts.

From the water-resistant case to the alarm notifications, the device is designed by experienced mariners to include features that they would want in a tracking and security product. The Guard Dog Marine advantage includes a battery voltage monitoring system, and a one month rechargeable integrated backup battery.

For global range, Guard Dog Marine can be upgraded to an optional iridium satellite module.

## OUR MOBILE SOLUTIONS

**Guard Dog GPS, Inc.** has developed remote mobile solutions that actively interact with your vehicle. Detailed information on the status of each vehicle is seen in real time with your handheld mobile device. With **Guard Dog Remote Track** you can control virtual fence perimeters for each vehicle, immobilize the engine of your vehicle, or activate accessories. An alert is immediately issued if the vehicle moves beyond the area set, allowing you to contact 911 and report the coordinates of your vehicle in real time for quick recovery.

**So much power at your fingertips!**

## OUR AIRTIME PLANS

All **Guard Dog GPS, Inc.** devices require activation and an Airtime Service Plan. You may purchase your plan once you receive the device by going online to <http://store.guarddoggps.com>. You will be required to set up a username and password of your choice, and enter the serial number of the device you received in order to purchase the plan.

All of our plans include: unlimited use of the website application, unlimited use of the mobile application, no commitment, no early termination fee, no hidden fees, no surprises, 2 year warranty, and a 30 day 'No Questions Asked' return policy. Purchase any Annual Plan and save 17% over the Monthly Plan.

## OUR WARRANTY

The limited warranty is extended to the original purchaser only and is NOT transferable.

**Guard Dog GPS, Inc.** products are warranted to be free from defects in materials or workmanship for two years from the date of purchase. Within this period, **Guard Dog GPS, Inc.** will, at its discretion, repair or replace any components that fail in normal use. Such repairs or replacement will be made at no charge to the customer for parts or labor, provided that the customer shall be responsible for any shipping & handling cost. If product is within the scope of this warranty, **Guard Dog GPS, Inc.** will reimburse reasonable standard shipping, handling, tracking & insurance costs.

This warranty does not apply to:

- (i) cosmetic damage, such as scratches, nicks and dents;
- (ii) damage caused by accident, abuse, misuse, flood, fire, or other acts of nature or external causes;
- (iii) damage caused by service performed by anyone who is not an authorized service provider of **Guard Dog GPS, Inc.**;
- (iv) wear and tear items including but not limited to batteries, cables, external antennas;
- (v) improper installation including but not limited to exceeding the maximum rated output capacity, out of range input voltage, exceeding operating temperature range and/or installing in locations not suitable for equipment, static electricity caused by but not limited to lightning strikes; or
- (vi) damage to a product that has been modified or altered without the written permission of **Guard Dog GPS, Inc.** In addition, **Guard Dog GPS, Inc.** reserves the right to refuse warranty claims against products or services that are obtained and/or used in contravention of the laws of any country. **Guard Dog GPS, Inc.** products are intended to be used as a general tool and should not be used for any purpose requiring precise measurement of direction, distance, location or topography. **Guard Dog GPS, Inc.** makes no warranty as to the accuracy or completeness of map data.

**Guard Dog GPS, Inc.** retains the exclusive right to repair or replace (with a new or refurbished replacement product) the device or software or offer a full refund of the purchase price at its sole discretion.

*For complete warranty information, please refer to the warranty booklet provided with the device, or refer to the warranty posted on the **Guard Dog GPS, Inc.** website.*
